\* Column Heights May Be Varied  
 (A) 4-piece column cover with reveals  
 (B) 8-piece column cover with reveals

## COLUMN JOINT OPTIONS

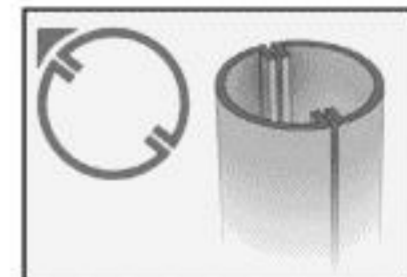

### Lap Joint

- This joint is to be filled & finished for a seamless column.
- Column is to be painted in the field as desired.
- Typical applications are for installations in a high traffic area with a permanent application.

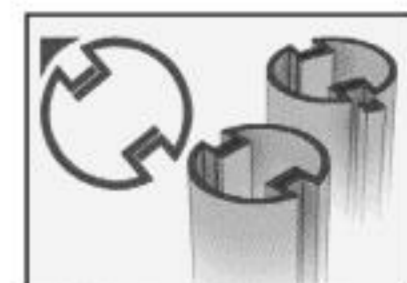

### Butt Joint

- This joint is an exposed joint.
- One side is mechanically fastened to a supporting structure. Second side is attached with adhesive.
- Available in various colors & textures, but we recommend the column to be painted in the field.

### Reveal Joint

- This joint allows for removal of column cover for access.
- Column and accent strip available in various colors and materials.
- Typical applications are for installations that hide important wiring or plumbing that may need to be easily accessed at a later time.
